MANUFACTURERS OF THE RAX SYSTEM FOR UTV, TRUCK & OFF-ROAD VEHICLES
NATIONWIDE DISTRIBUTORS OF ROK STRAPS AND OTHER UNIQUE PRODUCTS

PRESS RELEASE – MAY 1ST, 2009

PU-PRODUCTS, LLC APPOINTED NATIONWIDE DISTRIBUTOR OF ROK™STRAPS.

ROK™STRAPS is pleased to announce that PU-Products, LLC has been appointed as the Nationwide Distributor of the ROK™STRAP line of stretch straps and leashes. The Official Website will be www.rokstrapsamerica.com

ROK™STRAPS are the strongest stretch straps on the market today. They are made of solid natural rubber with a 100% Polyester cover for advance UV protection. Available with either web loops or case hardened metal hooks on each end that are fully box stitched to the body of the strap.

Straps are available in fixed lengths from 12 to 60 inch and in weight ratings of 90, 125, 165 and 200 lbs and in adjustable lengths from 12 inches to 15 feet. Loop-Thru ends are geared for motorcycles, quads, roof racks, roll bars, providing positive tie-down without fear of loss. Hook ends have the ability to loop-thru also.

The ROK™STRAP line is available in black and jungle camo colors. The jungle camo is especially targeted to the military applications, government, hunters and outdoor enthusiasts. Hunters find the 10ft adjustable straps to be excellent when securing their catch to a roof rack, or UTV bed. Military applications include strapping rifles and equipment down to prevent loss out in the field. Once you try the top quality and tough ROK™STRAP line, you will never go back to the cheaply made bungee cord sold by mass merchandisers.

ROK™STRAPS also has a line of stretchable 54" dog leashes. These leashes offer several distinct features. The stretch core absorbs the pull of a playful dog and saves your shoulder. The double handle feature allows you to quickly 'short leash' your pet for safety reasons and obedience training. Made tough, like the standard ROK™ tie-downs, all leashes have box stitching, 100% polyester cover and strong spring clasp. These leashes are weight rated 10-30lbs, 30-60lbs, and 60+. A variety of colors are available. Matching collars are in the works as we speak.

The ROK™STRAP product line is unlike anything on the market today. Corporate will not sacrifice quality for price. Whether securing a flat screen TV to your roof, a ladder to a work truck, a surfboard to a rack, or cruising on your favorite trail with a cooler attached to your ride, you won't find a more secure and reliable tie-down strap.
