**PRESS RELEASE -
RZ-RAX SYSTEM BY
PU-PRODUCTS, LLC
AN ACCESSORY FOR POLARIS RANGER
RZR™ and RZR-s**

PU-Products is pleased to introduce the RZ-RAX SYSTEM for the Polaris Ranger RZR™. Designed to fit in the bed, the RZ-RAX SYSTEM utilizes our own PLUNGE n' LOCK system to hold the RAX in place. The RZ-RAX SYSTEM consists of a mounting plate called a RZ PLATE and accessory holder, RZ-RAX.

Constructed of .125 (1/8") brushed aluminum, the RZ-RAX SYSTEM is designed to carry coolers or fuel jugs, safely and securely. The mounting plate attaches to the POLARIS RZR with the integral PLUNGE n' LOCK plungers. The customized accessory holder or RZ-RAX A, bolts onto the plate to create a unique holding system for the Polaris RZR. The RZ-RAX has multiple holes and slots for attaching straps. Each RAX holder comes with a 12-42 inch adjustable ROK™ Strap for added security and an add-on whip flag holder. The accessory holder can carry a cooler approx. 19" x 9", such as our OFF-ROAD COOLER 24PK, or 2 of our square 5-Gallon Utility Jugs, available in various colors. The PLUNGE n' LOCK plungers make it easy to remove the RZ-RAX SYSTEM when needed.

For versatility, a second accessory holder or RZ-RAX B, can be attached easily with the provided stainless steel mounting hardware. With RZ-RAX A & B, you can easily carry 2 Utility Jugs and 1 cooler. Great for extended rides or as a support vehicle for group rides. In the planning stage is a rifle mount for sport shooters.

The RZ-RAX SYSTEM is sold with or without Utility Jugs or Coolers. Also Available in Black/Silver Vein finish and custom powder coated colors for an additional fee. Suggested Retail Price for the brushed aluminum finish RZ-PLATE and RZ-RAX A is \$149.00. The additional RZ-RAX B Retails for \$69.00. (Shown above with 2 RAX)
